

PAUL BERGERON JR CONTRACTING INC COVID-19 PREVENTATIVE MEASURES

Clean, Neat and Respectful

FACE COVERING

We respect social distancing guidelines and our clients health, therefore we can wear masks when inside your home or business without issue.

HAND SANITIZER & WORK TARPS

As a personal preventative measure we apply hand sanitizer often through the day. A standardization even before COVID-19 was to place down tarps on all surface areas being worked on to prevent dirt or damage.

SOCIAL DISTANCING

Feel free to talk with us from inside your home as we stand outside (6 ft away is recommended) before we start working. Describe your comfort level with having us in your home and block off areas we need to access. Commonly we need to access the basement panel, attic space and area the work needs to be installed.

REQUESTING SERVICE SAFELY

We have made REQUESTING ELECTRICAL SERVICE easier on our website www.bergeroncontracting.com. Upload pictures and describe the work or issues right on the REQUEST ESTIMATE page and we will be in touch.

"PROUDLY PROTECTING THE HEARTBEAT
OF YOUR HOME AND BUSINESS"
